

Partnerships are essential in helping Children’s Aid Foundation of Canada advance our impact in supporting children, youth, and families involved in our country’s child welfare system. In addition to our largest and longest-standing partner, Children’s Aid Society of Toronto, we work with local, regional, and national organizations that serve this population or are connected to it, and that have innovative, evidence-based program outcomes. By working together, we can achieve far greater impact for our country’s most vulnerable kids.

In 2019-2020, we worked in partnership with 74 agency partners across 9 provinces and 1 territory, granting a total of \$9.9 million to support vulnerable children, youth, and families.

### National agency partners
